Ruth,

Attached is a draft of the Assumable Waters preamble and regulatory text for you to review and share with the workgroup. This draft has been reviewed by Kathy and Simma and has been edited to reflect discussions the three of us have had to resolve questions and outstanding concerns. There are a couple of comments left in the document in areas where we would like to ask the larger groups opinion.

Please let me know if you would like me to add it to the SharePoint folder, or if you want to review prior. I am happy to have the Assumable Waters preamble and regulatory text be on next week's group discussion agenda if you think it is ready for group review.

Don't hesitate to reach out if you have any questions on the language.

Best,
Megan
